Number 1, March 1991

Announcement from the Publisher v

The schistosomicidal compound Ro 15-5458 causes a reduction in the RNA content of *Schistosoma mansoni*
F. Eshete and J.L. Bennett (U.S.A.) 1

Characterization of cDNA clones for the beta subunit of pyruvate dehydrogenase from *Ascaris suum*
M.J. Wheelock, R. Komuniecki, E. Duran and K.R. Johnson (U.S.A.) 9

Alterations in Krebs cycle enzyme activities and carbohydrate catobolism in two strains of *Trypanosoma brucei* during in vitro differentiation of their bloodstream to procyclic stages
P.O. Durieux, P. Schütz, R. Brun and P. Köhler (Switserland) 19

Conservation of cation-transporting ATPase genes in *leishmania*
J.C. Meade, G.H. Coombs, J.C. Mottram, P.E. Steele and J.R. Stringer (U.S.A., U.K.) 29

Glucose metabolism in *Giardia intestinalis*
P.J. Schofield, M.R. Edwards and P. Kranz (Australia) 39

Detection of amplified *Wuchereria bancrofti* DNA in mosquitoes with a nonradioactive probe
S. Dissanayake, X. Min and W.F. Piessens (U.S.A.) 49

Isolation and partial sequence of a collagen gene from the human filarial parasite *Brugia malayi*
V.R. Caulagi, C. Werner and T.V. Rajan (U.S.A.) 57

Characterization of *Onchocerca volvulus* cDNA clone encoding a genus specific antigen present in infective larvae and adult worms
S. Lustigman, B. Brotman, T. Huima and A.M. Prince (U.S.A.) 65

Genetic exchange in *Trypanosoma brucei brucei:* variable chromosomal location of housekeeping genes in different trypanosome stocks
W. Gibson and L. Garside (U.K.) 77

Expression of a stage-specific lipophosphoglycan in *Leishmania major* amastigotes
S.J. Turco and D.L. Sacks (U.S.A.) 91

Molecular characterisation of a protective, 11-kDa excretory-secretory protein from the parasitic stages of *Trichostrongylus colubriformis*
T.A.A. Dopheide, M. Tachedjian, C. Phillips, M.J. Frenkel, B.M. Wagland and C.W. Ward (Australia) 101

Plasmodium falciparum-infected erythrocytes contain an adenylate cyclase with properties which differ from those of the host enzyme
L.K. Read and R.B. Mikkelsen (U.S.A.) 109

Chromatin organization in *Entamoeba histolytica*
H. Torres-Guerrero, D.A. Peattie and I. Meza (U.S.A.) 121

Trypsin modification of phosphofructokinase from *Ascaris suum*
P.A. Ahanotu, E. Ahanotu, N.G. Srinivasan and B.G. Harris (U.S.A.) 131

Molecular cloning of *Taenia taeniaeformis* oncosphere antigen genes
W.G. Cougle, M.W. Lightowlers, H.O. Bogh, M.D. Rickard and K.S. Johnson (Australia) 137

Ribosomal RNA sequences of *Sarcocystic muris, Theileria annulata* and *Crypthecodinium cohnii* reveal envolutionary relationships among apicomplexans, dinoflagellates and ciliates
A.A. Gajadhar, W.C. Marquardt, R. Hall, J. Gunderson, E.V. Ariztia-Carmona and M.L. Sogin (U.S.A.) 147

A putative RNA virus in *Babesia bovis*
R.C. Johnston, N.A.R. Farias, J.C. Gonzales, H. Dewes, A. Masuda, C. Termignoni, K. Amako and L.S. Ozaki (Japan) 155

Immunogenicity of recombinant *Plasmodium falciparum* SERA proteins in rodents
P.J. Barr, J. Inselburg, K.M. Green, J. Kansopon, B.K. Hahm, H.L. Gibson, C.T. Lee-Ng, D.J. Bzik, W. Li and I.C. Bathurst (U.S.A.) 159

Chemostat cultures of *Leishmania donovani* promastigotes and Trypanosoma brucei procyclic trypomastigotes (*Short communication*)
B.H. Ter Kuile and F.R. Opperdoes (Belgium) 171

Growth and acidic pH induces amastigote stage-specific protein in *Leishmania* promastigotes (*Short communication*)
D. Zilberstein, N. Blumenfeld, V. Liveanu, A. Gepstein and C.L. Jaffe (Israel) 175

Clonal variation in the *Plasmodium falciparum* circumsporowoite protein gene (*Short communication*)
M.J. Lockyer (U.K.) 179

Pneumocystic carinii organisms derived from rat and human hosts are genetically distinct (*Short communication*)
K. Sinclair, A.E. Wakefield, S. Banerji and J.M. Hopkin (U.K.) 183

Number 2, April 1991

Announcement from the Publisher iii

Mitochondrial development in *Trypanosoma brucei brucei* transitional bloodstream forms
E.J. Bienen, M. Saric, G. Pollakis, R.W. Grady and A.B. Clarkson, Jr. (U.S.A.) 185

A novel protein antigen of the malaria parasite *Plasmodium falciparum*, located on the surface of gametes and sporozoites
I.I.M.D. Moelans, J.F.G.M. Meis, C. Kocken, R.N.H. Konings and J.G.G. Schoenmakers (The Netherlands) 193

Characterization of a 54-nucleotide gap region in the 28S rRNA gene of *Schistosoma mansoni*
H. van Keulen, P.M. Mertz, P.T. LoVerde, H. Shi and D.M. Rekosh (U.S.A.) 205

Structure of Sm25, an antigenic integral membrane glycoprotein of adult *Schistosoma mansoni*
P.O. Ali, S.A. Jeffs, H.M. Meadows, T. Hollyer, C.A. Owen, F.G.C. Abath, R. Allen, F. Hackett, S.R. Smithers and A.J.G. Simpson (U.K.) 215

Purification and characterization of DNA polymerases from *Plasmodium berghei*
E. de Vries, J.G. Stam, F.F.J. Franssen, P.C. van der Vliet and J.P. Overdulve (The Netherlands) 223

Molecular cloning of an *Echinococcus granulosus* protein expressing an immunogenic epitope of antigen 5
B. Facon, M. Chamekh, C. Dissous and A. Capron (France) 233

Distinct patterns of tyrosine phosphorylation during the life cycle of *Trypanosoma brucei*
M. Parsons, M. Valentine, J. Deans, G.L. Schieven and J.A. Ledbetter (U.S.A.) 241

Characterization of the protein contents of rhoptries and dense granules of *Toxoplasma gondii* tachyzoites by subcellular fractionation and monoclonal antibodies
M.A. Leriche and J.F. Dubremetz (France) 249

Recognition of a peroxisomal tripeptide entry signal by the glycosomes of *Trypanosoma brucei*
K. Fung and C. Clayton (U.S.A.) 261

Glucosylation of glycoproteins in *Crithidia fasciculata*
G. Gotz, S. Gañán and A.J. Parodi (Argentina) 265

Cloning and characterization of ribosomal RNA gene repeat from *Ostertagia ostertagi*
J.B. Dame, C.A. Yowell, C.H. Courtney and W.G. Lindgren (U.S.A.) 275

The complete sequence of a *Plasmodium malariae* SSUrRNA gene and its comparison to other plasmodial SSUrRNA genes
M. Goman, B. Mons and J. Scaife (U.K., The Netherlands) 281

Hallucinogenic and neuroleptic drug interactions with potential neurotransmitter receptors in parasitic nematodes
S. Albrecht and R.D. Walter (F.R.G.) 289

Cloning and characterization of a species-specific repetitive DNA sequence from *Loa loa*
A.D. Klion, N. Raghavan, P.J. Brindley and T.B. Nutman (U.S.A.) 297

A carbon-13 nuclear magnetic resonance analysis of the products of glucose metabolism in *Leishmania pifanoi* amastigotes and promastigotes
P.M. Rainey and N.E. MacKenzie (U.S.A.) 307

Functional expression of the dihydrofolate reductase and thymidylate synthetase activities of the human malaria parasite *Plasmodium falciparum* in *Escherichia coli*
S.J. Hall, P.F.G. Sims and J.E. Hyde (U.K.) 317

Cloning and expression of complementary DNA encoding an antigen of *Trichinella spiralis*
X. Su, A.K. Prestwood and R.A. McGraw (U.S.A.) 331

An antigenically distinct lipophosphoglycan on amastigotes of *Leishmania major*
T.A. Glaser, S.F. Moody, E. Handman, A. Basic and T.W. Spithill (Australia) 337

The C-terminal extension of the major cysteine proteinase (cruzipain) from *Trypanosoma cruzi* (*Short communication*)
L. Åslund, J. Henriksson, A. Campetella, A.C.C. Frasch, U. Petterson and J.J. Cazzulo (Sweden, Argentina) 345

A *Plasmodium falciparum* MSA-2 gene apparently generated by intragenic recombination between the two allelic families (*Short communication*)
V.M. Marshall, R.L. Coppel, R.K. Martin, A.M.J. Oduola, R.F. Anders and D.J. Kemp (Australia, Nigeria, U.S.A.) 349
